This was my first Jim Brickman book. There is a lot more complex rhythms than I expected but its not too bad once you get the hang of it.

Loved the music and also how you can give your own twist to interpreting the style while you play!

Really bad quality on the kindle version. Almost unreadable. I wouldn't recommend anyone purchase this. Get the printed book instead.

I have always been a huge Jim Brickman fan. This particular book is my favorite of all his books because the music is very diverse, fun to play, and very relaxing. I'm a high school choir teacher, and I played this book to a couple of my classes as a way to de-stress and they loved it as well.

Great deal on this book of Jim Brickman's. Pieces are late intermediate to early advanced. Need to

practice them to master them.

i like and have been playing about 80% of the songs in this book. But I feel like maybe I should have just printed out and downloaded the individual sheet music per song because I'm so particular with songs. Overall, I think if you have heard and liked most of the songs in this book, you will love this.

Love his music. Book is simple.

Great songs!
