Aircraft Dispatcher Oral Exam Guide: Prepare For The FAA Oral And Practical Exam To Earn Your Aircraft Dispatcher Certificate (Oral Exam Guide Series)

Synopsis

An aircraft dispatcher is a licensed professional certificated by the FAA who has joint responsibility with the captain for the safety and operation control of flights, and this exam guide prepares candidates with an explanation of the certification process and the necessary knowledge requirements for passing the practical oral exam. It provides practical applications to all critical subject areas, including route planning, regulations, training and currency requirements, certification, responsibilities and authority, aviation weather, and manuals and documents. The book places special emphasis on situational questions and includes a generic guide to the proper systems and procedures, which students can apply to the specific aircraft used in their individual operations. For aviators preparing for a career as an aircraft dispatcher or current dispatchers reviewing for their annual proficiency checks, this guide will provide all the information necessary for passing the required exam.

He has more than 6,000 hours of flight time and numerous certifications. He was honored by the National Association of Flight Instructors as a Master Ground Instructor. He lives in Billings,

Montana.

I used this so much for my ADX review. The book is set up like an examiner is asking you questions. Even if the exact question you get asked isn't in there, you can pull information from other questions to get the answer. For the price, it is a must have preparing for the ADX oral.

Great book for those looking to obtain their dispatcher's certificate. I used it in the classroom as an instructors guide and my students found it to be very useful to study for their practical.

Lot of stuff in here that just really isn't going to be ever asked of a brand new Dispatcher in a Oral and Practical interview. So it's a little too detailed for a new Dispatcher trying to pass O&P, maybe good to brush up for job interview for a more experienced Dispatcher! I'd say about half of the stuff could be asked, so it's helpful.

Great book

Great review material!

Great tool used in correlation when taking the aircraft dispatcher class. Wish i would have purchased it at the beginning of class

So great! A great reference for the test and afterword!

I have my license! Many of the questions in this book were asked at my O&P and some of the chapters did help me prepare for a job interview.
