Dirty Billionaire: The Dirty Billionaire Trilogy, Book 1

Synopsis

I've got a big dick and an even bigger bank account. That's pretty much where my bio ends. Honestly, I don't need to say anything else. I've just sold 99 percent of women on going home with me. Do I sound like an asshole to you? That's because I am. And guess what? It works for me just fine. Or at least it did...until I met her. Books talk about sparks flying. F--k that shit. With her, it was like emergency flares mixed with jet fuel. Or maybe just straight up napalm. Only one problem: She wouldn't tell me her name or her number when she disappeared from the hotel room after the hottest f--king night of my life. Now I've had a taste of unicorn pussy - the sweetest, rarest of all pussy - and I need it again. So what's an asshole to do? I took this problem to the street, a missed connection gone viral. And when I find her? I'm keeping her.

Best Sellers Rank: #20 in Books > Audible Audiobooks > Fiction & Literature > Erotica #729 in Books > Literature & Fiction > Erotica #15731 in Books > Romance

Customer Reviews

Dirty Billionaire by Meghan March Holly is new to the country music industry. Her management is using her to save another artist's career. She is the fake girlfriend but the said boyfriend is doing her no favor where her career is concerned, not to mention being a publicist's nightmare. Pushed to the limit she lands up having a one night stand with Billionaire Creighton Karas who is known for his playboy man whoring ways. After a passionate night, Creighton wakes up alone with no idea who she is. He decides to use a very different tactic of finding her. Holly is left to make a decision that could either ruin her or save her. Creighton is domineering, controlling, powerful and possessive. It is his way or no way! Or is it? Holly only has one shot at making it this industry and she cannot afford to lose focus. Is Creighton going to jeopardize all her hard work? The

chemistry is raw, dirty and explosive. Holly does not stand a chance with this professional dirty talker who has many talents. I was impressed with Holly's character; she was strong for the right reasons and only submitted sexually. Creighton, as much as he was an asshole, you just had to love him. The story keeps you glued while waiting for the shoe to drop. The book had enough sexual encounters and yet it did not feel like an overkill, it worked. This book ends with us wanting more and so I am off to one click the next book. Ms March is a new author to me but I will definitely be looking to read more of her books. Reviewed for Hot books and Sassy Girls book blog

After tasting Meghan March's work last year, I decided it was time to pick something else of hers to read, and since I was on the hunt for an audio book, I decided to pick up a freebie and grab the audio. And if you've listened to Sebastian York before, there's no way you'd pass over listening to his dark and smooth voice. Elena Wolfe did a fantastic job of portraying Holly as well, the accents were exactly what I imagined! Dirty Billionaire was the sexy read that I expected it to be, but I was more intrigued by the direction of the story and the connection the characters were building. I just wished I'd done a little more research, so I knew that it was the first in a trilogy that continues into the next book. There's nothing worse than getting to the end of a book and it ends so abruptly! So, now I'm hooked, and I know I'll have to read the next books. Holly was focused on her career, but was unhappy with the way that she was being treated by her record company. They were manipulating her into a relationship with a cheating guy who wasn't interested in her. She decided to have a night to herself before they pushed things too far and she landed in the bed with Creighton Karas. Creighton and Holly were fun to read about. Creighton was all possessive alpha male and loved to be in charge. Seeing him with Holly was amusing because she was a little feisty, but when they hit the sheets, she was a touch submissive as well. He loved both sides of her and I could see that he wasn't going to be satisfied with just one night of being with her. I enjoyed how this story unfolded; watching Creighton and Holly fall for one another slowly over a short period of time. There were plenty of sexy scenes, as they got to know one another intimately, and boy were they hot! *fans self* But I could see that they were changing and wanting more from this relationship, making sacrifices and wanting to keep each other happy. But like most trilogies, it ended abruptly, and I was left frustrated! What happens next? Do they work things out? Will they fight for one another or let it all go! I know I'll have to get the next one and find out!

I loved Creighton. He was arrogant, domineering, and sexy as hell. Holly is a rising country star with only one goal--making her singing dreams come true--and nobody is gonna stand in her way. I was

curious how the author would pull off the instant relationship, and I must say that I enjoyed it. I don't want to ruin anything, but I thought it was a pretty novel approach to an overly done plot line. Back to Creighton because, seriously, he made the book... There was how he felt about Holly..."She brought out my most basic possessive instincts. If they were any stronger, I would have been thrown out of the bar for pissing a circle around her." And there was just him in general..."Yes, I know I sound like an a-----. It goes with the territory. You don't get to where I am in life without making more enemies than you can count. But one of the upsides? I get to pull crazy stunts like this, and people just shake their heads and wish they could be me." The sexy times between Creighton and Holly were hot and plentiful, but he made it clear from the start that his business will always come first. Just when you think that maybe, just maybe, he'll try to stop being such a jerk about it, he blows it and proves once again just how selfish he is. Problem is you have to read the next book to find out what happens, which I would love to do, but I don't know if I want to badly enough to invest the \$8 necessary to finish out the trilogy. I might just stop while I'm ahead.
