Pimsleur Goltalian Course - Level 1 Lessons 1-8 CD: Learn To Speak, Read, And Understand Italian With Pimsleur Language Programs (go Pimsleur)

Synopsis

The Pimsleur® Method teaches speaking and understanding right from the start. For almost 50 years, in over 50 languages, the Pimsleur® Method has been recognized by experts worldwide as one of the fastest and most effective ways to learn to speak another language. With Pimsleur you will learn Italian in the same way you learned your first language as a child, acquiring the vocabulary of the new language, along with the melody, rhythm, and intonation of Italian as used in everyday conversation. The Science of Memory Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out Italian, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "Italian eyes." And you will learn to read Italian without an English accent. Learn on the Go!goitalian makes it easier than ever to use the Pimsleur programs by including the spoken lessons in two audio formats. Now you can listen anytime, anywhere: in your car or at home and on your MP3 player. This package contains:

Customer Reviews

Dr. Paul Pimsleur devoted his life to language teaching and testing and was one of the world's™ leading experts in applied linguistics. After years of experience and research, Dr. Pimsleur developed The Pimsleur Method based on two key principles: the Principle of Anticipation and a scientific principle of memory training that he called "Graduated Interval Recall." This Method has been applied to the many levels and languages of the Pimsleur Programs.

I have used the Pimsleur Japanese program and figured that it would be my go to for Italian. I've used Rosetta Stone with little success and much frustration. This program has been a great way of relaxing and engaging my mind. My friend and I are using it and speaking back and forth to keep the other on their toes and utilize the program to eventually learn enough conversational Italian to utilize on a future trip abroad. There is not basic repetition of unrelated terminology or conjugations. You are given the basic components for conversing and are then shown how to utilize these different parts to build, edit and change sentences effectively and more importantly, with confidence. It's a joy to use and I recommend that you try this program. You won't be sorry.

This is the second time I've purchased this product... I bought one for my daughter as she will be taking a cruise to Italy in a few months. It's fun and easy to learn some key phrases but don't expect to be fluent. It's perfect to use it in the car while I'm driving. My only complaint is that the box came in damaged and it was a gift. I used a different seller this time and they did a lousy job packing this item.

As described.

and this one is no exception. I have used Rosetta Stone and like it, but I prefer Pimsleur products. Highly recommend for any primarily auditory learner.
