Customer Reviews

Hagstrom Westchester County Street Atlas & Metropolitan New York Road Atlas: Large Scale (Hagstrom Westchester County Atlas Large Scale Edition)i got this book because i moved from one part of my city to another part and needed to see the streets around where i live since i would be walking around and also using public transportation it helps to see what streets are in what direction especially when one has to go around highways i would have liked the streets to have been larger but a magnifier glass helps what i also like about these books is that they are upgraded every so many years to accomodate changes made in area

In like new conditions, and maps will always give information and great details at a glance GPS will never achieve with the limitations of current size and speed.

The smell of mildew in the map was so strong I threw it away before looking at it. I'd not buy

anything from this site again.

I wanted a map showing the Westchester area in New York so I could find a business in the village of Larchmont, New York. I also liked the insert maps for other area cities including a closeup of the Meadowlands sports complex in New Jersey. This is a good map book for those who want to go to New York City and/or Westchester County.

My husband and I deliver meals on wheels once a month in our town, we deliver to about 20 invalids and elderly shut-ins about 50 miles of back roads, some of them unpaved. Our town is in semi-rural northern Westchester. We have been here only 13 years and are unfamiliar with some of these roads. The maps help us doing our good deed for the month.

I needed this map with large type due to advancing age, my eyes aren't what they used to be. For some reason, it's hard to find new, so I ordered a used one and crossed my fingers. The map was shipped very quickly and when I got it, it was in excellent, gently used condition - I think a library map. I was very pleased!

too big and cumbersome. I have to get out of my car to open it. Lol. Poorly organized.

Very useful, easy to read and use.
