Farseek - Commanders Mate: SFR Alien Mates (Farseek Mercenary Series)

Synopsis

While they were fighting the Consortium's war against the Sargus Empire far from their home world, the Sargus Empire attacked Farseek, leaving mass destruction in its wake. Only about a dozen survivors remained to tell what happened---a dozen of over a million. Those who weren't killed were taken to become slaves of the Empire. As the story opens, Commander General Zared Maktu has found the piles of wreckage that is all that's left of his family's neighborhood. Nothing the Consortium has to offer can compensate what was lost. Time for the company of Farseek Dreadnought One to make a new plan. They must find those who were taken alive and bring them home. After terminating their contract with the Consortium, they take a job to rescue a governor's daughter stolen to be sold into slavery. Commander Maktu doesn't just rescue the Governor's daughter and her companion. He and his company take all the 100 abductees from the auction house. Only two are from Farseek, but there are four unusual females from a planet called Earth---and one of them is his fated mate Harper Avery. Things heat up from there.

Customer Reviews

I voluntarily reviewed an ARC copy of this book in exchange for an honest reviewThis is the first book in a new fated mate series by this author. The book is a quick and easy read that is very

entertaining. The world and characters are detailed to give the reader a better feeling for the story. While away fighting a war for the Consortium the Farseekan homeland was decimated and its people killed or taken as slaves. Commander Zared Maktu and his fellow warriors are going to get them back. Harper Avery an Earthling kidnapped by Sargus slavers finds out that we aren't alone in the universe. What a way to find out on her way to possibly becoming a sex slave in a far galaxy. Before the auction though she and a number of other women are rescued by Commander Maktu and his men. Farseekan's identify their solmatu's or fated mates by smell and at first sniff Zared knew Harper was his solmatu. The beginning of a war was definitely not the best time to find one's soulmate. Zared and his people have a long hard road ahead of them so will his burgeoning relationship with Harper suffer? Can and will Harper accept Zared and his solmatu relationship in stride along with everything else going on? What's in store for the Farseekan people and their world? Many questions will need to be answered. I'm looking forward future books in this series by Ms. Lake. This quick and funny story is entertaining and you should get your own copy to see what I mean.

I liked the story line and the characters. The reason I gave this book 3 stars is that the editing was just pitiful. There were words out of sync. There were verb tense mistakes. There were sentences that I had to read several time for them to make sense. This has the potential to be a really good book and a great series if it was cleaned up. I usually do not give bad reviews. If I don't have a good review, I usually don't review at all, but I really liked this story. So, hopefully, these authors will take a look at having the next book in the series edited by at least a high school English teacher before they publish. Good luck to them in their writing.

I enjoyed this book very much. It has adventure, romance and Fated mates! The characters are very likeable and I found myself rooting for them. The world they inhabit is very interesting and I can't wait to read more about it in future books. I couldn't put this book down and look forward to the next book. I voluntarily leave this review of an ARC.

Pretty good! The author's world building is very good! Something I noticed in her other books. Little bit of a cross over between another series of hers. All in all I can say I'm looking forward to her next book in the series.

The commander finds a soul mate in the rescued Earth women held as slaves. A fun story out of
