Customer Reviews

I bought this book several months ago when I was planning trip to Nashville. It is same book like all others from Moon. It means it is not good book. Only several first pages are colored and when I will compare this badeker with any other from DK publisher there is not reason buy any book from Moon anymore. This one was my first book from moon I saw more Moon's book in library and I am sure that I will not buy any other. I bought several books from DK publishing and I like them match more. There are more expansive but match better for me .

The book is a good survey of the two cities but is not comprehensive in its description of restaurants and attractions for both. A good compromise if you don't want specialty books for both locations. Also includes cities between the two .
