Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This book arrived quickly and lives up to its name. All songs are in C. I don't want to play them all in C but they can be easily transposed. Lead and melody lines are great and the chords are easy to play. You can embellish chords if you want or simply play them as they are. I am an intermediate

player but these are great for beginners and just challenging enough to make you stretch your musical muscles. I wanted a book I could use in my small group and on camp outs with my Trail Life USA troop and this is it!

I love this book! I've only been playing piano a short time so it's perfect for me. (But why is it called "Fake"??? It's basic, but you have to be able to read music and chords to play the songs.) Lots of good songs from which to choose. I will purchase others, but still don't like the name :)

Great for teaching kids how to play using chords. These are relatively easy -- all in the key of C -- so I use this with my students. Ordering another copy for another student now!

This is another great book in the Fake Book collection. I love it! It has a lot of GREAT songs in it. The downside is that it has fewer songs than some of the other Fake Book Collections, and it is not spiral bound which makes it more difficult to use when playing piano or guitar. Overall awesome product, that I recommend!

I have limited piano skills and do not like playing keys with multiple sharps. One of these days I will get more comfortable with them, but for now it is good to know that there is a music book that has arranged so many current worship songs in an easier key to master. The key of C is very simple and with my electric keyboard I can transpose it into any key I need to sing in while still having the ability to play the songs in a familiar key. I also only play chords with my left hand, so I already use the "fake book" style to play the piano with anyway. I would recommend this book to anyone who has limited piano skills but who desires to worship God through the medium of music.

I truly love this book. I had taken piano as a child from a classical performance teacher and could only play (and not very well) reading the notes. Since I've always sung, I wanted to be able to accompany myself and just chord. I had decided that I had a "learning disability" in piano. But, these Hal Leonard books have "broken the code" for me and I'm playing every day. I also sing in the key of C, so that's another plus. I'm 70 years old, and for the first time, I'm enjoying the piano!!!

This book is bound and A4 size. Difficult to use. I'm removing each making a reduced copy and putting the pages in a 3 hole binder. Almost impossible to use as is.

I love this book. It's easy to read and understand, and features both regular notes on the treble clef and the accompanying chords that go with it. I'm a beginning harp student, and use this book to learn all my favorites from my teen and Bible College days. My husband likes this book too, because it tells him what chords to play on his guitar. One book, two happy musicians on different instruments. Not bad at all.
