Push off and explore more than fifty routes along the United States-Canada border in the Boundary Waters Canoe Area Wilderness and Voyageurs National Park. Veteran paddler James Churchill takes you on a journey through this region's most spectacular landscapes, from the scenic waterfalls of Little Indian Sioux River to the towering palisades of Namakan Narrows. Whether you prefer fishing, camping, wildlife viewing, or quiet solitude, these waterways will take you there. Inside you'll find: an overview of what to expect and how to prepare; detailed maps showing access points

and routes; thorough route descriptions including character, difficulty level, and average run time; a list of information resources.

The late James Churchill, author, naturalist, and woodsman, made his home in Florence, Wisconsin.

I love this book, I only wish it had more routes to ponder over. I like this book better than most others because it comes with a good preview map for all the routes it lists.

Strengths: trip descriptions and maps are very useful. If this is all you are looking for in a guidebook, buy this book and you're done. Weaknesses: Doesn't provide enough information on obtaining permits, etc, which is essential given the regulated nature of this area. All of the practical "how to" advice is entirely focused on canoes. Kayaks do not exist as far as this book is concerned. This probably reflects the author's generational bias, but is no longer reflective of modern options. Though I personally was not seeking advice on equipment, given that this book does intend to dole out advice useful to the novice, it's time to look beyond canoes. In this same regard, the descriptions of appropriate clothing choices is decidedly 1950's.
