Customer Reviews

Good beginner book with pictures, only downside is a few of the poses (about 1/4) don't have very good explanations of how to achieve the desired poses. Would have been disappointed with the purchase if it had been any more than the \$8 I paid. All in all not bad.

This was not very descriptive.

Some of the pictures were not showing

Meh. Didn't show anything unusual or exciting that you could get on YouTube. And I had a hard time retrieving it.

Always learn from a qualified instructor, but this book is an excellent supplement for review of what you've learned and names of moves and poses.

pretty usefull

Never came to me.

Honestly, this is like, Lyra for infants. Very, very few moves, and they were more like pre-requisites as opposed to a 101. I rarely give bad reviews but this was a waste of time and money. I returned the book, and I hope something more comprehensive eventually becomes available.
