Mastering Manga 3: Power Up With Mark Crilley

Synopsis

Master the skills to create your very own manga! Expert manga artist Mark Crilley guides you to another level with this powered-up drawing book. Complete your Crilley collection with this third installation, which elevates the instruction to focus on drawing methods to help you create distinctive and detailed professional-level manga art. Through 40 in-depth step-by-step demonstrations not covered in other Mastering Manga books, Mark reveals his secrets for adding color, how to draw manga-style animals, ways to use photo reference, his preferred art supplies and how to fix character inconsistencies. The book is broken down into three sections: Characters and Styles. Learn how to draw characters in every manga style--elegant Shojo, angular Dark Fantasy, action-packed Shonen and cute cartoon. Includes non-human characters like animal familiars (realistic or chibi) and aliens. Break-out lessons focus on anatomy, hairstyles and all genres of clothing, from classic anime uniforms to fantasy costuming. Poses and Action. Make your characters bold, memorable and full of vitality. Get the most out of your poses by learning how to create natural, standing and dynamic running poses, plus sword fights, romantic Shojo interactions and stances for animals, manga monsters, chibi cuties and mech a robots. Advanced lessons include how to convey a sense of motion, tips on body language and how to effectively using foreshortening. Finishing Touches. Elevate your art with Mark's professional instruction on completing your comic. These final lessons include page layouts, logo design, how to place a character in a setting, correctly using dialogue and speech bubbles, advanced costume design (fantasy armor, wings, and more) and how to create attention-grabbing cover art. "Manga is all about fresh concepts and fascinating characters. You've got ideas. You've invented new characters. There's a whole world waiting to see what you've come up with!" --Mark Crilley

I bought this book without hesitation mostly because I was so happy with Mark Crilley's first two book in this series. (I hope he makes a 4th) Again, Mark takes it one next level, improving techniques for a more advanced style while still not rushing things through the book. More advanced poses, character interactions and character types are covered in the book as well as some techniques to help you speed up your drawing a little bit. There's also tips and coverage of scenery, shadowing and backgrounds, some clothing and costume tips and coloring covered. I recommend this book for those of you who are pretty good already, but are stuck on how to improve your art and bring it to the next level, although I did debate as to whether to give it 4 or 5 stars for a bit because I felt there could be a little bit more in this one.

Mark Crilley is one of a kind. His writing in this book takes the reader to the next level. I have given this book as a gift on many occasions and every artist find great use out of it. You cannot go wrong with this series. It is destined to become a staple in Manga.

Good. My teen daughter likes that it has a lot of different poses, objects and characters. Could be more detailed. Good breadth, depth needs a little improvement.

Had a hard time getting the concept of manga down considering the simplicity of the style and being a detail artist. Mark Crilley's books and videos helped me put it all together. Still need to work on

hair but, I think I'm getting my style down. Love you Mark, thanks for helping put a unique moment together for my wife and daughters and to pass my down time in Stan.

He shows how to draw step by step. Also shows how to place characters into different scenes. How to use photo to create your scene. I thoroughly enjoyed going through each chapter.

Mark Crilley is my daughters favorite Manga illustrator. She is thrilled to have all three in this series. She says he is the best at breaking down Manga principles so that anyone can grasp and apply them. Her work has really revolved as a result of these books!

Another fantastic installment of my favorite "how to draw" manga series. Each book has provided me with more and more in-depth knowledge from an illustration master and this book is no different. Perfect for those who are ready to take their skills to the next level!

I am hooked on this book! I bought all three volumes :p The instructions in every lesson are very easy to follow. Though, my advice would be to repeat every lesson at least 5 times until you master it. It's a lot of drawing, but trust me it helps you learn from your mistakes thus making you a better artist lol.
