Good Sex: A Sex Guide For Women On How To Give Men What They Want And Keep Them Coming Back For More

Synopsis

Sex itself is the silent cornerstone of human civilization. It is what leads to all things - life, pleasure, even hate and rage. It is that one topic that, no matter how modern we have become, is still considered taboo, yet at the same time it is also the one topic that we need to know most about. This book contains, in addition to a brief talk on sexual etiquette, the specific concepts that exist around the notion of Good Sex. You see, while the notion itself may have definitions that are gender specific in nature, it is still a notion that can be constructed provided we build up to it with all the right materials and approaches. These approaches and materials are what are discussed in each chapter, each segmented into different aspects, from toys to testing boundaries! This book is basically your "how to" guide for mind-blowing sex and not just how to use that particular phenomenon to satisfy your man but also how to leave him panting for more! Here's a preview of what's inside: P is for positive sex Mind control - how being sexy is all in the mind! Sex talk - bringing conversations to bed Making him notice you - time to bring him to his knees What men want - a peek into the male mind Setting the scene Role-play - spicing up the bedroom The lost art of foreplay Great sex - guidelines to sexual utopia Turning things up a notch - spicing up your sex life And much more!

Customer Reviews

Wow what can I say! This book definitely made the difficult and taboo subject of sex seem lighthearted and fun. As a guy, I found all the tips the author provided to the ladies to spice up their

sex life very practical, and useful. The author has a very good sense of humor since I laughed quite a few times while reading this book, but she has a good heart because she wants to help release the sexual deviant in all women. I plan to share this book with all of my female friends so they can supercharge their sex life. This is a Must read!

This book is vague and uninteresting. It might be good for someone who is just starting their sexual adventures, but I've only been having sex for 10 years, and I didn't read anything here that I didn't already know. On top of that, the typos and grammatical errors were very distracting.

Very general. Boring. Read in less than an hour. Didn't learn anything new. Waste of time. Try something more substantial if you're really learning to learn something. If you're new to sex maybe you'll learn something. Still too general to really be helpful.
