Formerly an editor, Kathleen Weidner Zoehfeld is a veteran children's book author of both fiction and nonfiction.

Very good little book. My granddaughter is fascinated by tadpoles and frogs, so she loves this.

Great book for kids.

It captivated their attention from front to back! Very appropriate content for this age group. They loved the colorful pictures.

easy book for preschool children, great pictures!

Great realistic pictures.

I used this for my daycare frog lesson plan. It was easy to understand and the pictures were great. It was a hit. NOT for independent reading until about 7 years old - it's not that sturdy.

Great photo book which shows the stages from frogspawn to frog

This is definitely not a Level 1 book. My son can read level 1 books with basically no trouble and some level 2's. However, he struggled the whole way through this book and got frustrated/ lost interest. I have read it to him several times and he is starting to learn the words from that but it is definitely at least a Level 2 or 3 when compared to the Step to Reading or other leveled books we have read.
