Customer Reviews

This is a fantastic workbook that has helped my child a great deal. It has exercises in the early portions of the book that lay out the writing process in a way that is easy to understand. It discusses "prewriting" or laying out the concepts that you want to discuss, adding details, organizing thoughts,

writing sentences, and finally writing entire narratives. This book lays out each of the steps in a straightforward manner that has helped my child's writing immensely. I highly recommend it for anyone that wants to help their young child become a better writer.

When purchasing an item I always search for great quality, great reviews, without putting a dent in my wallet. Item arrived promptly with Prime. I am only giving this item a four star review because my daughter likes it. It seems dry and boring to me, but it does seem to teach what you need to learn in the seventh grade fairly well. I wouldn't buy it again, but like I said, my daughter likes it and she is pretty hard to please when it comes to textbooks.

I bought this in the middle of our homeschool year, trying to replace a writing curriculum that we didn't like. This will definitely get the job done for the rest of the year, and my son seems to like it.

use for daily practice for homeschool the book is easy to understand and comes with an answer key in the back to check answers for accuracy.

This is just long enough to agree upon. I use Spectrum writing for both of my homeschooled boys. I can see that each book builds skills. It is also something that my sons can do without a fight.

Love these workbooks for part of our homeschool curriculum. Highly recommend.

This workbook really helped my 6 year old son improve his writing skills. He is an advanced student but had trouble putting together thoughts to make a cohesive paragraph. Now he free style writes wonderfully in the second grade. Thank you!

I like spectrum over kumon. Material is good and is about right for the grade. Kids love to do it.
