Customer Reviews

Mikel A Rothenberg, MD (deceased) was a board-certified internal medicine specialist with a special interest in critical care and emergency medicine. Dr. Rothenberg wrote several medical and legal books, numerous journal article, and an ACLS computer software program. He served as the executive editor of ACLS Alert, and wrote an advanced cardiac life support online column. A strong advocate of personal growth and self-esteem building, Dr. Rothenberg spoke internationally, presenting courses on "plain English" medical topics. Sean G Smith, BSN, RN, NREMT-P, FP-C, C-NPT, CCRN-CMC, CFRN, CEN, CPEN, has experience in both emergency care and critical care.

He has written neo-natal/pediatric CE exams for the American Association of Critical Care Nurses, as well as writing for Mosby clinical updates. He has practiced and taught critical/emergency care and re-hospital emergency medical services. Sean lectures at the national level and has extensive text review/exam writing/contributing author credits.

Great book when trying to learn what everything means in PA school!

Purchased for a CE course coming up next month---good information with easy to comprehend. Great reference book.

Absolutely wonderful book. I first noticed this book when at a medical conference/seminar the lecturer used it as his primary reference source. Had to purchase it due to its being so straight forward and user friendly

This is an excellent textbook...the best guide to laboratory tests I've ever come across! Not just the usual regurgitated lab numbers...this gives you the "real world" information you need to apply what you've learned clinically. It emphasizes understanding the "why" behind things, instead of rote memorization of isolated facts. It also includes detailed case studies that show you how the lab tests are used in real living, breathing patients. Highly recommended! Well worth the money!

provides detailed information in a concise format

easy read and follow, able to fully understand the material.
