How To Retire In Panama (How To Retire In Book 5)

HOW TO RETIRE IN PANAMA

by

Les Johns

A man a plan a canal
Panama

A palindrome

Synopsis

This series will provide information on all aspects of retiring in particular countries. The monographs are a companion series to a web site which is a developing site and which is mentioned within the book. The details covered include choosing a country, getting a visa, police clearance, income, driving conditions, climate, time differences and many other aspects vital to settling in a new place. Included also is a resource chapter which provides links to many other sites of interest. The objective is to provide the reader with maximum information at minimum cost. These books are supplements to the web site which can be taken and read once the search for a retirement haven has been narrowed to a couple or so countries. On a Kindle they can be perused when access to a web site is not possible. Books are a permanent resource. The internet can be an ephemeral phenomenon.

Customer Reviews

I was expecting much more specific info about Panama based on the title. The kindle edition need some work as specific links are often not listed or properly described. It provides some necessary

info but is quite basic.

it is OK - I was looking for a little more information

everything good

Definitely not a travelogue. Good general information that touches on all the basics that you'd need to know if you're considering retiring in Panama.
