Best Sellers Rank: #73,656 in Books (See Top 100 in Books) #31 in Books > Law > Ethics & Professional Responsibility #69 in Books > Reference > Encyclopedias & Subject Guides > Business #82 in Books > Textbooks > Communication & Journalism > Journalism

Customer Reviews

"This book, more than any other media ethics textbook currently available, treats students as the intellectually curious, philosophically aware, and ethically motivated individuals that we hope them to be. As one brings one's own wisdom to the reading with the understanding that there is more to learn, this is one of those rare books that has the potential to keep on giving to professors and to students."--Deni Elliott (10/07/2013)

I needed this textbook on very short notice for a class, so I decided to order the ebook version as a rental to make it through the 8 week course. I am really glad that I was able to change the length of the rental on this so I didn't have to pay for a lot more time that I won't need to use the book.

Another benefit of the textbook in this format is that it is a searchable text, which is amazing for an online class with open book tests. What I don't like about this book is that it isn't completely comprehensive, so we had to order an additional book along with this one to complete the class. It would be nice if this text included case studies and some more comprehensive, longer explanations of the topics so the book could be used as a single text in the class. Overall, I think the book is well-written and organized to be useful for the class. It does a good job of presenting the information in an understandable way, and the ebook formatting is really convenient and well done. I would definitely recommend the ebook version to anyone who needs this book.

This book helped me pass my Media Ethics class as the professor was on point when he said read the book and you will pass. The verbiage is pretty easy to understand with very relatable examples all throughout the book.

This professor is a joke, took his class at CSU and 8 people in my class alone submitted formal complaints about this man. This is not a college level book in my opinion.

Came in good condition
