# Chiromancy - The Language Of The Hand

## Synopsis

Chiromancy is the art of describing the personality and predict the fate of an individual through the study of the palm of his hand. Chiromancy, universally considered a pseudoscience, is divided into two main disciplines: palmistry, which deals with the study of the lines of the palm, and the chirognomia, which deals with the study of the shape of the hand. There are many different interpretations of the lines of the hand according to the different schools of chiromancy, fortune tellers often combine modern and traditional techniques of foresight with psychology, holistic medicine and other methods of divination.
