Walking Salt Lake City: 34 Tours Of The Crossroads Of The West, Spotlighting Urban Paths, Historic Architecture, Forgotten Places, And Religious And Cultural Icons

Synopsis

A new title in the Walking series, Walking: Salt Lake City is geared to first-time visitors to Salt Lake City--and to local residents. Both will enjoy the history and tales about places they thought they knew, and will be surprised to find walking destinations they may not have considered before. Each tour in the stylish, portable format touches on history, culture, and local architecture, plus insider recommendations on eateries, galleries, and nightlife. With clear maps depicting each walk, parking and public transit info, at-a-glance summaries and Points of Interest appendices, there's no better way to discover a city than on foot with a Walking guide. Walking Salt Lake City is a time-traveling guide to Salt Lake City's past and to its vibrant present. Written by Utah natives, it presents rambles of every kind. The 30+ tours explore the city's downtown, which is experiencing an invigorating renaissance. While snow-capped mountains, famous canyon resorts, and the inland sea that gave the city its name invitingly beckon hikers, skiers, snowboarders, climbers, and day-trippers, Walking Salt Lake City unveils tempting reasons to enjoy the urban setting itself. Thoughtfully designed, the guide offers precise directions, easy-to-follow summaries, and tips about inviting eateries and shopping havens.

But if you're looking to explore the rich history of the "Crossroads of the West," Walking Salt Lake City will help you do just that." --KCPW, Salt Lake City's NPR affiliate, August 2012"This guide includes a wide variety with something for every walker, and its compact size make it perfect for taking along on your rambles." -- The Deseret News, July 2012

Coauthors Lynn Arave and Ray Boren are Utah natives steeped in the history, culture, and panorama of Salt Lake City, and both have enjoyed longtime careers writing and photographing for area media. The men forged a solid professional relationship during decades of working together at Salt Lake City's premier newspaper, the Desert News. A "go-to" writer and editor at that newspaper for 31 years, Lynn Arave retired in December 2010 and now devotes his time to writing about the area he knows and loves so well. During his 35 years at the newspaper, avid photographer and writer Ray Boren won local, regional, and national recognition for his work.

I would have given this book 5 stars if they only would have put the actual address in where the hike begins. I'm not from Salt Lake City, and I don't know where the corner of here or there is. I use my GPS to get around, and that requires an address. Other than that, the book is great and I take it with me when I go walking.

This was very useful in our stay in Salt Lake City. Take this and visit the visitor's Center in the Salt Palace. Cross reference. Don't forget Arches National Park. I left my copy in the hotel for the next person.

I really wanted something with more pictures of Salt Lake City!

A great purchase, with lots of tips on seeing the main sites in Salt Lake. Interesting points of history too!

This is one of the most enjoyable books I've read in a long time. Although I am now living in Texas, I still enjoyed taking a few walks in Salt Lake City. (Salt Lake City isn't really my home town. I lived in Sandy, about 12 miles to the south.) However as a child and a teenager, and later as part of the older generation, I did have the opportunity of walking parts of Lynne's walks. It is a book which I

enjoy whenever I feel like taking a walk
