During his undergraduate training, Dr. Lynn was trained in beekeeping by Dr. Walter Rothenbuhler, a pioneer in the research of genetics and disease in European honey bees. Dr. Lynn is a diplomate of the American College of Veterinary Clinical Pharmacology and a fellow of the American Academy of Veterinary Pharmacology and Therapeutics. He works part time in small animal practice and is active in short-term missions to Nicaragua, Honduras and Mongolia. He has owned honey bees since 1990 and currently operates approximately 50 moveable frame and moveable comb beehives.

Excellent book. Very basis, step by step, designed for 3rd world countries that don't have a lot of resources. You can do it very inexpensively so you can afford to do it yourself.
