Twins! 2e: Pregnancy, Birth And The First Year Of Life

Synopsis

Twins! is a comprehensive guide for all parents preparing for a multiple birth. It is filled with practical advice from specialists who work with expectant mothers and their twins every day. From the moment the expectant mom knows she's getting more than she expected, Twins! provides complete information on pregnancy, birth, and the postpartum experience: Your relationship with your practitioner Pre-pregnancy planning Fetal and embryonic development Healthy weight gain for expectant mothers Once the babies are born, Twins! sees the whole family through the exciting and challenging first year, examining such issues as: Sleeping and feeding schedules Your babies as individuals Redefining the family and supporting the needs of other children Survival tips for extra-busy parents Insightful roundtable discussions with other parents of twins New in this second edition: Complimentary medical practices, including acupuncture, supplements and herbs as well as current safety guidelines for the use of prescription and over-the-counter medications 3-D ultrasound images of developing twins What parents need to know about immunizations and their safety An up-to-date resource guide to twin-specific organizations, periodicals, and Internet links And much more! Twins! gives you all the information you need to have a safe and sound twin pregnancy so you can concentrate on the joy of raising happy, healthy children. Congratulations!

Customer Reviews

At last! A book that I can recommend to the hundreds of couples who are hungry for information about the special pregnancy they are going through. This is a positive, well written book that parents will turn to again and again. The Elizabeth Noble book is scary and so negative. This easy to read book is not only a joy to read from cover to cover, but also well indexed so parents can go directly to the chapters they need. Most parents expecting twins cannot find material, let alone information that is both practical and up to date. I publish children's books for families of multiples and receive up to 30 calls a day which mostly consist of Moms and Dads in shock over the news that they are having twins or more! This book fills an important need and I am happy to send my customers to buy it. What a great shower gift and along with the author's 2nd book, "Caring for your Premature Baby," these parents will be fully prepared to be knowledgeable concerning this wonderful time in their lives. I only wish that it had been available when my daughter was expecting her twins. Don't walk, run and get this book, read it and then relax, enjoy this special time. God Bless you all.

Good book!

Good Book full of information about twins and what to expect and how to deal with situations.

Not a good read. You can learn more on twin websites than this book. I returned it after two days..... not worth the money.

Arrived looking used, cover and pages bent slightly

For a subject matter that is miraculous and incredibly exciting, this book had me yawning. And I found it to be a bit on the negative side. Dry and not very informative to me.

One of the most helpful reads for moms expecting multiples!

Fine.
