Customer Reviews

the most falsely advertized book i ever bought. it was advertized as a hot wheel guide but has only 1 page

Excellent guide prices.

Too outdated for my purpose.

This book has a review on almost every kind of toy car, but leaves out the prices of a lot of them. There is almost no selection for hot-wheels, but there is a lot of selection for matchbox. My problem is that I have cars with no model numbers, which makes this book useless. I was able to find ERTL and a few others I had though.

Very useful guide.

This guide is a good starting point for finding the value of many types and brands of toy cars, but it falls flat on actual market value. I've found I've received higher returns than are listed in this book on most all of my sales.

Book helped with all the cars that were collected .

It is not what I thought it would be I had so much problem returning the last on I keep it
