Customer Reviews

I am quite fascinated by this so called dreamcatcher. It seems like a really magical item to me.
Although I don't really believe in stuff like these, I still can't stop myself from getting interested in

wanting to know more about it. So when I came across this book, it immediately caught my interest. I decided to try reading it and I was glad I did. It actually quite contained well-written contents. It got me entertained and amazed at how people, especially the ancestors, deeply believed in the magical things found in this world. The "how to make" contents included here were pretty tempting to try.

This is your all in one guide to amulet and talismans including dream catchers and just about everything! This book really covers is all including how to make amulets which I thought was very cool you can really save money and have some fun at the same time! I defiantly recommend this book to anyone interested in Amulets and Talismans!

Wonderful book. Amazing deal for the price. Quick easy and definitely very resourceful.

My wife loves everything connected with talismans and amulets. She asked me to purchase this book, and she really loved it. Now she spends evenings reading it. She recommends it for everyone who's passionate with it, like she is.

Very easy to read, and very informative, it could of had more pictures to show it better, but it was good

A+

I haven't read it yet.sorry

I wish we as consumers here were permitted to view at least the first 3 pages of content before purchasing. This book is of no use. Limited instructions on how to create, even more limited information on use of talismans. Very few photos, and those are black and white. More effort involved in the retur6of purchase, I already threw the book in the garbage. Buyer beware.
