Morton J. Kern, MD, FSCAI, FAHA, FACC, Professor de Medicina da Universidade da CalifÃ rnia, Irvine, Orange, CalifÃ rnia; Chief of Medicine, Health Care System Veterans Long Beach, Long Beach, CalifÃ rnia;

Bought this when I started my new job in the Cath Lab. It was extremely helpful in all aspects of my

job. In the lab that I work everyone is cross trained in all roles. Morton Kern has a way of explaining things and the way certain procedures are done. I use it everyday in my job and when I was studying for the RCIS exam it was very valuable . I now own both this edition and the most current. I also recommend that anyone new or old to the lab purchase this book

Perfect

Great book for what I need.

top notch.

Book is in awesome shape! and it was super cheap! :-)

rarely comes a book that just hits home run, esp in medical community. this one has everything and the new edition also has all that in COLOR!! complete book with enough info for fellows and for gen cardio boards. great size to carry around in cath lab as well.

Very detailed.

I find this this to be the go to book. Frankly, it is a must have. Especially for any one new to the field.
