Customer Reviews

Well laid out guide book. Lots of useful tips and it is very clear. Lonely planet continues to be my favorite guide book.

Super comprehensive! Highly recommended.

Great guide! Well written, informative, entertaining- made our trip much more rich!

great

A good guide for backpackers only.

I have been a Lonely Planet user for years in multiple countries. There will always be subjective differences between favorite restaurants, hotels, etc. What I was disappointed in in this guide was the basics that were incorrect. Even the country map did not match up at the binding so that a section of the country was just missing. I checked in with other travelers and they also had faulty maps. There were also pieces that were inaccurate in regards to distances and other key information that made me wonder if the authors had truly been to these places. I really enjoyed my travels through Guatemala but would love to edit some of this guide!
