Examples & Explanations: Remedies, Third Edition

Synopsis

A favorite among successful students, and often recommended by professors, the unique Examples & Explanations series gives you extremely clear introductions to concepts followed by realistic examples that mirror those presented in the classroom throughout the semester. Use at the beginning and midway through the semester to deepen your understanding through clear explanations, corresponding hypothetical fact patterns, and analysis. Then use to study for finals by reviewing the hypotheticals as well as the structure and reasoning behind the accompanying analysis. Designed to complement your casebook, the trusted Examples & Explanations titles get right to the point in a conversational, often humorous style that helps you learn the material each step of the way and prepare for the exam at the end of the course. The unique, time-tested Examples & Explanations series is invaluable to teach yourself the subject from the first day of class until your last review before the final. Each guide helps you learn new material by working through chapters that explain each topic in simple language challenges your understanding with hypotheticals similar to those presented in class provides valuable opportunity to study for the final by reviewing the hypotheticals as well as the structure and reasoning behind the corresponding analysis quickly gets to the point in conversational style laced with humor remains a favorite among law school students is often recommended by professors who encourage the use of study guides works with ALL the major casebooks, suits any class on a given topic provides an alternative perspective to help you understand your casebook and in-class lectures

Customer Reviews

Professor Hasen is an expert in the Remedies field and I highly recommend this book with any remedies class. This book is also extremely helpful if you need a Remedies treatise to supplement your bar exam studies. It covers all of the bar exam topics in a more simple, but better approach. The section on how to take a Remedies test alone made this book a great buy.

Made some of the more difficult remedies concepts much easier to comprehend (read: equitable subrogation and constructive trusts). I don't think I would have done nearly as well on my final had it not been for this book clearing up some of the muddiness that my professor brought to the class.

it helps alot

My remedies class was incredibly esoteric and philosophical, but the exam was not. This remedies E&E was great in breaking down everything, explaining the black letter law as well as the different policy reasons behind the law. Examples were good, too.

I have used E&E for just about every class in my law school career. I love the series and have really appreciated the application of the law to different hypos. This book is written in a easy to understand fashion and for the most part breaks down some complicated subjects into common language. All in all, it's a great book and it helped me study for my Remedies class.

Great book!Simple straight forward reading that ties important remedial concepts to examples and builds on them, through out book.

ENGLISH: As you know, we in L.A. base our law in the Roman system. For that reason, it is sometimes difficult for me to explain to an American client our compensation and damages. As a lawyer who has not studied in USA, the book has been very helpful in understanding the differences in the two systems and avoid confusing opinions. Another thing: the English used is quite clear, for that reason can be understood very well without being an expert English speaker. I've order other books in the series. Notice: You are supposed to know the legal details of their own country, because the book is only based on the American system. ESPAÑOL: Como ustedes saben, en L.A. basamos nuestro derecho en el sistema Romano. Por esa razĂ n, algunas veces es d韆cil para mi explicar a un cliente americano nuestro sistema de compensaciones y de daĂ os. Como un

abogado que no ha estudiado en USA, el libro ha sido muy útil para entender las diferencias en ambos sistemas y evitar opiniones confusas. Otra cosa: el inglés usado es bastante claro, por esa razón puede comprenderse muy bien sin ser un experto angloparlante. Ya he pedido otros libros de la colección. Advertencia: Se supone que usted conoce los detalles legales de su propio país, porque el libro solo se basa en el sistema americano.

I teach Remedies. I used to be a fan of Gilbert's law summaries. Now I'm a fan of Examples and Explanations. Gilbert's has gotten too long, too complex, and does too little summarizing. No study aid is a substitute for the classroom. However, E & E can help pave the way to better understanding.
