Customer Reviews

I have been selling rather successfully on ebay for 15 years, so I got curious as to the benefits etsy would give me as a mostly antiques dealer. Good, concise info, some repetitiveness, but I took lots of notes on this and am eager to give it a try. For those who are new to online selling or who are new to the effects of emerging trends like social media have on online business (hint: its HUGE), this is a great primer.

If you're serious about making money on Etsy, then you need this book. Extremely detailed so you will know exactly how to make the most of your Etsy selling account. I am so impressed, I have stopped 2/3 of the way through to write the review. I've been fooled before by many books offering "expert" advice and turning out to be light weight in content. This book is super heavy with easy and actionable advice.

Good book for the Etsy shop owner who's new to the community and for those who have been around for awhile. Good suggestions and facts I didn't know or thought of. Information is always good especially if you want to make money in your shop.

I love a good reference book! And one that can help me make money is even better. I already do a lot of things online for money but this book helped me see that I really should be branching out to Etsy! I never even considered it before reading this and now am so glad I came across it! I can't wait to get started. What a goldmine!

I was very impressed by the quantity and quality of information in this book. Things you would never even consider as a newbie to the online handmade market are covered! It reads like a trusted (smart) friend giving you sound advice about selling on Etsy. You will be thankful that someone with this type of authority and experience was willing to share so much. I look forward to reading more of this author's work in the future.

I have had this book one day, followed chap.1 and feel supercharged! I feel empowered acting on some of these suggestions so far with boosting my Etsy shop! I hope it brings CASH!! Thx!

This was a pretty solid book, but it assumes you know quite a bit about technical aspects of social media that I didn't know. Too much unexplained jargon.

I really enjoyed this book! It was super informative and such an easy read. The only thing that was a bummer was that some of the links provided no longer worked but if you google search I'm sure you'll find the answer to whatever that link was going to provide you with. I'd definitely recommend this book to Etsy seller newbies.
