Customer Reviews

At the ripe age of 77(but I've not met my expiration date yet), I may never need the plainspoken instructions in this book! But, again, I'm prepared in the event I ever find myself in one of these scenarios - even in a dream!!!

It was a fun quick read with some valuable info if the worst things happen while traveling. I enjoy it

and suggest it for anyone that travels often to foreign or unfamiliar countries

I bought it for my husband as a joke He's read through and said it was a little humorous. He said it's really valuable information and thanked me

Fun book! Might come in handy one day...camel on the runway...But there are some good tips in there. I enjoyed it

It's fun and hopefully not necessary to know ways to get out of a car trunk. Certainly vital to know how to trap water on a desert island. I have no way of knowing if all these tips are good practical advice, but they're definitely amusing. I must remember to determine whether the elevator is cabled or piston operated before I get on next time!

For information, fun, entertainment. A small book to carry around while killing time, waiting in line, waiting for service, waiting for appointment time. If the situation will never apply, the knowledge may be comforting.

Though luckily I have not had any of these scenarios occur while traveling abroad, this book is definitely something I pack with me every time I travel. I don't expect to need to jump from rooftop to rooftop or to navigate a minefield, but this book does prove to be very entertaining on a long plane ride and is a great comfort just to have. There is some repeated content from other "Worst Case Scenario" books, but I think most of them are relevant to travel. My favorite part is the strategies and phrases in the back of the book. They're hilarious and pretty informative.

I have to admit, I am one of those neurotic folks who wonders about the "what ifs" in life. I found this book to be very informative. It made me feel more relaxed about travel knowing how to handle jumping from a train (boy was I wrong about that one) to not taking my passport around with me. It also has some lighthearted aspects, such as the UFO abduction section.
