Grade Level: 1 - 4

Customer Reviews

Ed Emberley is the Caldecott Award-winning author of the popular Drawing Book series, as well as the best-selling Go Away, Big Green Monster! He lives in Ipswich, MA.

It's the simple things, isn't it? I buy a lot of toys for different reasons... education. sparking interest, exploring science, developing skills, developing muscle and it is hit and miss on some of my choices but this was a winner. A simple book requiring nothing more than a thumbprint and stamp pads. It provided hours of fun and entertainment and is often played with several days in a row. I highly recommend for kids who have interest in art and creativity.

My children (7 and 4 years old) LOVE this book! It is really catered to young children as the pictures are simple for them to follow. They use it independently for HOURS! And their drawings come out so cute. This book also has helped them to learn to create new creations because they have learned to experiment on their own. Even better, I have fun making these creations with the kids. It's

so fun to transform your finger print into an animal or person and to see the happiness in your children's faces when they proudly show you their drawings is priceless! =) One of the best purchases I have made for arts and crafts - would highly recommend to anyone who have young children (and adults who are kids at heart) in their lives!

Terrific! Love it! This is great for making cards and teaching artwork to small children. I love how it's organized into various subjects...emotions, holidays, gardening, zoo animals. I may not have the subject right but I think I've made my point.

I have given this as a gift 3 times now with a multicolor inkpad from Michaels, \$4 with coupon. I hope they like it. I am getting custom stamps made so I don't have to use my own fingerprints which is much harder than it may seem at the beginning. These custom rubber stamps are the most expensive item!

My 7 year old daughter loves this book because of the wonderfully, funny fingerprint art she is able to do. Since she received it she has been making cards and pictures for family, teachers and friends. This book sparks a lot of creativity. Because of the simple technique everyone can feel like an accomplished artist with just a piece of paper, a finger, an ink pad and a black pen. Great way to keep the children busy, creative and productive!

I got this as a gift for my 3 year old niece. Although she enjoyed it, I think her mom and I had more fun. Emberley's simple, step-by-step instructions made me feel like an artist. The fingerprints were cute when finished, and although the three year old didn't quite "get it" the book held her attention for over an hour the first time she used it, and it has been requested several times over the last month since I gave it to her! Looking forward to purchasing more of Emberley's books as the kids in my life grow up!

Fun and clever....loved so much I purchased another for a good little girl I know. She was happy and gets to work on as a reward on Fridays. My granddaughter immediately made an adorable picture of a mouse with balloons. I would have never thought of my fingers as art tools. Cool book!

this book was for my friends who like crafty stuff! and now I want one for myself too!!
