Victorih Arsenian is a writer, mountain climber, backwoods meandering tree hugger, an all-around adventure seeker, and a habitual coffee drinker. Raised most of her life in Los Angeles, Victorih caught the itch for travel from her family's yearly summer explorations of the Pacific Northwest. She grew up reading adventure novels by authors like Mark Twain, and Jack London, dreaming of finding her own adventures. After reading Scott O'Dell's *Island of the Blue Dolphins* she became fascinated by Native American culture. While attending college in Oregon, she'd often travel solo up the coast, exploring trails and mountains, and learning about local Native American legends. Victorih has since contributed to and authored several culturally-based travel publications

including, the award-winning A Travel Guide to Indian Country (Washington & Oregon), Explore Pacific Northwest Tribes, an audio tour guide of the Pacific Coast Scenic Byway, and numerous itineraries, and articles on cultural immersion travel. She has also traveled to and explored unique places across the globe, following her feet to every destination with a giant-sized box of band-aids.

I have read a lot of travel books, but this one is the best I have ever read. I want to plan a trip to drive the PCH, and the beginning of the book has a sample 21 day trip already planned out. It includes where to stop, what to see and where to stay. The following sections of the book elaborate on each of the trip segments, plus adds many more things to see and do. The maps, pictures, descriptions and layout are excellent. I bought other PCH travel books as well, but this is the only one I really needed. This is the book to buy.

Great tool for travel planning

Great book

Great info and organized well.

A very useful guidebook for anyone planning to take a Pacific Coast road trip.

This book has been very helpful and informative to help plan our trip to the west coast.

This is not my first Moon publishing book and I will keep buying them every time I plan a trip. Really easy to handle, read and follow.

I have only read parts of this book but feel it is what we need-still planning that road adventure of a lifetime and it has loads of great tips
