The Study Of Law: A Critical Thinking Approach (Aspen College)

Synopsis

The latest edition of *The Study of Law: A Critical Thinking Approach* offers a comprehensive, intelligent overview of all the key concepts covered in a typical introduction to law course. A critical thinking approach is used to introduce students to the study of law, encouraging students to interact with the materials through hypotheticals, examples, and well-designed questions. The text is divided into two parts, reflecting the topics addressed in an introductory course. Part I, *Introduction to the Legal System*, introduces students to the sources and classification of law, the structure of the court system, and an overview of litigation. Part II: *Basic Legal Concepts*, covers the basics of analysis and interpretation of the law, followed by chapters on substantive law. Key Features of the New Edition: Teaches students the basic skills necessary to understand statutes and court cases. Strong pedagogy reinforces well-written text presented in an accessible and well-organized format. Edited cases are included in every chapter to teach students how to read and analyze the law. New coverage includes: the Boston Marathon bombing case, the Affordable Care Act, and trademark issues involving the Washington Redskins, e-filing and e-discovery, discussion of same-sex marriage and custody disputes over pre-embryos, and crimes of unauthorized access of computer data and warrantless searches of cell phones.

Customer Reviews

I'll rent more books in the future. Great way to save.

ok

This formula is clear and watery, but it absorbs very quickly and you only need a small amount to cover your entire face. I noticed significant improvement in the appearance of my skin while using this product - i normally have dull, tired looking skin, but this serum gave me a glow that lasted all day. Definitely worth the money. I would recommend this product to friends. I received this product at a discount in exchange for my honest review.
