Having visited the Hotshop, I felt the dvd caught the making of Chihuly glass works perfectly. The only thing missing was the heat of the kilns. The book gives a good overview of his works in chronological order with excellently presented photography.

i saw part of this on public television and wanted to be able to view the entire video at my leisure.i have been a chihuly fan for a long time and seeing him at work in the hotshop is an amazing experience.

Chihuly's work in glass is amazing. To watch them create the different pieces is mesmerizing. I would love to meet Dale and find out more about his process with glass.

I own several Chihuly DVDs & VHS tapes; "Chihuly in the Hotshop" is the best one yet, and it even

arrived with a book. I look forward to letting my Art Appreciation students view the DVD.

Great book
