Terrific book to hone your skills. Not for the beginner though. had a great price and fast delivery

48 Famous Studies will take you through the entire range of your instrument as well as progressions, arpeggios, time signatures, and interpretation. It strengthens your wrists, diaphragm and your ability to read difficult passages and musical implementations. I strongly recommend this book.

This is a great book to push the intermediate/advancing student and a good book to keep you skills sharp. They are quick etudes and alternate between slow and quick paced, intensifying in key signature difficulty as the book continues. All music for the Texas all-state tryout back in my day came from this book.

Product is as described.

Fun book as far as class book go

Another out of print, but required piece of music.

Description says 1st and 3rd parts. My music only arrived with the 1st oboe part
