Fifty Places To Hike Before You Die: Outdoor Experts Share The World's Greatest Destinations

Synopsis

Fifty Places to Hike Before You Die is the latest offering in the bestselling Fifty Places series. Chris Santella, along with top expedition leaders, explores the world's greatest walking adventures. Some, such as the Lunana Snowman Trek in Bhutan and the Kangshung Valley Trek in Tibet, are grueling multiweek adventures at high altitudes. Others, such as Japan's Nakesando Trail, move leisurely from village to village, allowing walkers to immerse themselves in the local culture. Whether it's climbing the Rwandan mountains to view mountain gorillas or strolling through bistros along Italy's Amalfi Coast, there's a memorable hike at everyone's level within these 50 chapters. With commentaries from expert trekkers and insider tips that lead the reader off the beaten path, Santella has again captured the special characteristics that make these must-visit destinations.

Santella is the author of six other titles in STC's Fifty Places series.

Bought this as a gift for my parents that love to travel and hike. It was a great gift and they loved it!

Definitely a bucket list reference for the hardy hiker! You will most definitely add trips to your world hikes with this book.

Everything about this book is amazing, including descriptions and pictures, but unfortunately the cover was torn when I received it in the mail.

Gave this as a gift to a co-worker who is an avid hiker and he liked it. I did not get a chance to read it myself, but after flipping through the pages, and I could tell it would be a good read and very interesting. Hopefully my co-worker is able to tackle some of these must-try hiking trails!

very underinformative, below average for books of this genre.

Very good photography, so the readers interest is captured right away. Good quick description of each of the hikes and short bio on each writer. Makes a good, compact reference book, and nice gift to someone who is into hiking / trekking.

It looked like just what my grandson wanted, but I have not read it.

I would recommend this book for anyone looking for ideas for hiking trips. This book has come in very handy as my husband and I are planning an upcoming hiking and camping trip, and this book has been instrumental in planning what we are going to do for the duration of the trip.
