Customer Reviews

Very high level, but informative. Gives a good understanding of a daily activities and challenges. Worth it for the price of the book.

Thank you!

This book was so informative and gave me a realistic view of what a scrum master does on a daily basis, rather than just a text book example. I'm in the process of looking into a career change and I couldn't have found this book at a better time...I will definitely recommend this book to my

colleagues who may consider becoming a scrum master. Thanks!
